- b. Private ground transportation between the airport, hotel, and venue for rehearsal and performance. Town car or larger is needed to accommodate equipment.

One King/Queen size bed. **Rooms should be booked under the names Timothy Cripe and Marissa Gallegos and be located as close to the elevator as possible. Artists must be "pre-checked" into hotel and met in lobby by buyer, event producer, or hotel representative with room keys upon arrival.**

- g. One 1/4" DI (Direct Input Box) available at stage right along with Power Strip AC power source. An adequate sound system for speaking and for music. Usually the best results are from a professional stereo PA System, separate from the speakers which may be built into the room. 2 Stage monitor speakers are also necessary.
- h. A technician able to set levels and monitor microphones throughout the show.
- i. A stage at least one foot in height, eight feet in depth, and ten feet in width. This is a minimum requirement for rooms which do not already have a stage built in and one must be set up. The ideal stage for a ballroom, theater, hall, etc. is a standard theatrical proscenium stage. Stairs for stage access on the front of the stage are best, as stairs on the side of the stage slow things down.
  - ii. Furthermore, DO have the audience seated as close to the stage as possible. DO place stage in the center of the longest wall in the room so everyone is as close as possible. DON'T place on a short wall or in a corner. DON'T place a dance floor between the stage and the audience. DON'T schedule performance simultaneously with dessert service, meals, appetizers, open bar, or wait staff clearing the room.

DON'T have obstructions or distractions between the audience and the stage. It is best to wait until service has ceased to begin the show.

- j. Sufficient stage lighting and when practical, two spotlights with operators. Make sure Anthem and Aria's performance was the brightest part of the room.
- k. Six bottles of spring water
